

RECYCLING INFO / PROVINSSI 2023

Energy waste

- Disposable plates and cutlery.
- Dirty and moist cardboard, paper, tissues, food wrappings etc.
- Plastic (NO PVC!), food wrapping, plastic bags
- Plastic bottles and containers, plastic cans (no returnable bottles/cans)
- Styrofoam and foam
- Fabrics, clothes, protective fabrics etc.
- HOX! No PVC or leather!**
- Foam
- Waxy paper
- Wrapping paper
- Wood packaging
- Wood based small items

Cardboard

- Clean and dry cardboards
- Cardboard boxes
- Cardboard packaging
- Wave cardboard

Glass

- Transparent and clear glass
- Glass jars and bottles

Metal

- Metal lids and caps
- Metal packaging, metal cans
- Aluminium foils
- Aerosol cylinders (must be empty!)

All the metal cans and packaging must be washed from the food leftovers!

Dangerous/hazardous waste

- Batteries

Bio waste

- Foodstuff and leftover food
- Fruit and vegetable peels
- Coffee and tea (with filters)
- Tissues
- Plants in soil

Used vegetable oil must be located to the separate marked oil barrels.

HOX!

We do not recycle biodegradable plates and cutlery in biowaste in Provinssi.

They must be recycled to energy waste. Local biowaste plants can not handle them in their process. It's not worth (environment or financial wise) to deliver them to another biowaste plant which could handle them in their process.

Clear plastic

- Clear (see-through) plastic
- Clear stretch wrap
- Light pink/blue clear plastic wrap
- Clear plastic with printed or paper labels
- Only dry and clean plastic!

All the clear plastic must be backed in separate plastic bags.

You can locate full bags to the same compactor with cardboard.

Please note! Locate plastic only in bags to the compactors!
